

Clubhouses are communities in which its members and staff work side by side as equals. Members and staff together plan, carry out and develop functions of the Clubhouse.

Suvimäen Klubitalo

SUVIMÄEN KLUBITALO - A SAFE AND SUPPORTIVE COMMUNITY

The Clubhouse model is a recovery-oriented model. Our Clubhouse offers target-oriented activities and peer support for people who have experienced mental health issues. It helps members to encounter challenges of day-to-day life and lessen feelings of loneliness. Our community also supports its members with their education and employment goals. Membership is voluntary, time-unlimited and free of charge.

"Suvimäki Clubhouse has become an important community to me, in which I can be myself. I have received support, made friends and met with equals."

"Our Clubhouse has a sense of togetherness and a working atmosphere I haven't found elsewhere."

-Clubhouse Member-

CLUBHOUSE AS A PART OF A LARGER COMMUNITY

Suvimäen Klubitalo is a part of the national and international Fountain House network.

The International Standards for Clubhouse Programs guide all Clubhouses. The purpose of the Standards is to secure members' rights and give ethical guidance to the staff.

The Clubhouse International has a standard based accreditation process for Clubhouses. Suvimäen Klubitalo is proud to be an accredited Clubhouse.
